INTRODUCTION

From the fragrant flowers of spring, the red apples of winter, the slight yellowing leaves of autumn to the cool landscape of winter, Sharon Exoti Aura veneers draws inspiration from the myriad form of nature across the entire year. Choose from these topnotch collection of environment friendly yet eye catching collection of veneers.

MADE FROM GENUINE PLANTATION WOOD

WHAT IS RECONSTITUTED VENEER?

- It is a product made from **Genuine Plantation** wood.
- The wooden beams are of a single colour which is treated and systematically dyed to create the grain patterns and color of their wooden counterparts which we see in the final product.
- Our range of Reconstituted Veneer is known as SHARON AURA

WHERE CAN RECONSTITUTED VENEER BE APPLIED?

**Should avoid areas where water is present on a regular basis i.e. bathroom cabinets etc.*

VENEER

with

OVER 99% VIRUS SAFE

SharonVeneers are now fortified with VIRASAFE Technology. VIRASAFE keeps the surface always safe and hygienic. The action of its highly activated and energized Nanoparticles physically rupture and eliminate the microbes they come in contact with.

Anti-Viral

Anti-Bacterial

Anti-Microbial

Anti-Fungal

Provides more than 99% protection and ensures a Safe & Hygienic environment*

Non-Toxic

Thermo-Stable

Long-Lasting

Effective

*Conditions apply

5 REASONS WHY YOU SHOULD USE SHARON EXOTI AURA

1.

STATE-OF-THE-ART MANUFACTURING PROCESS

Optimum Drying

The veneer drying process ensures the best quality, texture and clear visibility in design

Accurate Sorting

Precise and thorough sorting procedure ensures consistency of design in every veneer

Proper Splicing

Perfect joining of veneer flitches leads to no gaps or overlaps between the flitches

2.

WIDE VARIETY

Designs

Excellent assortment of crowns, semi crowns and quarters

Range

Multiple shades available for selection as per need

Portfolio

Latest trends brought together from around the world

3.

BEST QUALITY RAW MATERIAL

Face Veneer

Veneer beams are procured from renowned European suppliers

Ply Back

Assurance of the superb quality and long durability of CenturyPly

4.

END PRODUCT

Identical Designs

Designs being replicable, the same veneer can be obtained in any quantity

Eco-Friendly

Made from fast-growing plantation timbers and therefore renewable natural wood sources, the product serves as an environment-friendly alternative to some of the more rare and expensive exotic wood species

Easy Finishing

Unlike conifers or tropical timbers where different types of additional chemicals are required for finishing, SenzuraStyles is easier to finish with any conventional wood polish

Flexibility

The end-user has the benefit of choosing between gurjan and a hardwood-base plywood

Glue Line Protection (GLP)

The use of an adhesive ensures borer and termite resistance on area where its applied and penetrates

5.

CERTIFICATIONS

Environmental

FSC® (Forest Stewardship Council)® Timber sources are sustainable

IGBC

(Indian Green Building Council) Member Products help you gain LEED (Leadership and energy and Environmental Design) credit points, which in turn give your construction a green rating

Product

IS 1328:1996

Decorative Product Test Certification

MR Grade (IS 303:1989)

Certification for ply being moisture resistant

BIS (Bureau of Indian Standards)

Finished product has an ISI certification mark

Process

IS 848:2006

Certification for the quality of adhesive/resin used

ISO 9001:2015 & ISO 14001:2015

Certification for quality of Manufacturing and supply

WHAT MAKES SHARON EXOTI AURA SO SPECIAL

1. UNIFORM DRYING

Sliced veneers that may carry high moisture content are subjected to a consistent low temperature drying process so that an optimum-controlled moisture level (10% - 12%) is maintained in the dried veneers

Advantages

- Low temperature dry prevents corrugation (i.e. waviness/ unevenness) in dried veneers
- Consistent drying maintains the surface quality of dried veneers, preventing them from splitting or tearing apart
- No fungus accumulation
- Increases the lustre of the veneer

2. PRECISE EDGE CUTTING & SORTING

Edge-cutting of dried veneers is done through machines equipped with the latest german technology. Comprehensive and exhaustive manual sorting is then undertaken on these veneers

Advantages

- A detailed and accurate sorting methodology leads to consistency of design and patterns
- Advanced cutting equipment ensures accurate edges of dried veneers which in turn leads to immaculate joining

3. SEAMLESS JOINING

Joining of sorted veneers is done by careful hand-splicing through adhesive and one-sided paper tape

Advantages

- A thorough hand splicing ensures there are no gaps or overlaps between the veneer flitches
- The manual process prevents the appearance of zig-zag marks on the surface of the veneer due to heat or chemical reaction of an automated process

4. IMPECCABLE ASSEMBLY

A special adhesive is applied to the ply back and the veneer is pasted on the same. The assembly is hot pressed to make an aesthetic decorative veneer of supreme quality

Advantage

- During assembly, the portion where adhesive is applied and penetrates becomes borer and termite resistant*

5. EXCELLENT FINISHING & INSPECTION

Assembled end-product is then carefully sanded, followed by a diligent quality inspection process

Advantages

- Pre-sanded material ensures a smooth surface such that the polishing can be suitably done on the veneer surface later
- Pre-sanded veneers significantly save time and make the final product less labour-intensive and more cost effective
- A meticulous quality inspection process ensures a superlative final product
